

Skills :

Programming & Data:

- Python (scripting, web scraping)
- Java (basics)
- SQL (queries, database design)
- Excel (data cleaning & dashboards)
- Data Visualization (Matplotlib, Seaborn)

Creative & Design:

- Graphic design (posters, social media graphics)
- Book template design
- Presentation design (PowerPoint/Google Slides)

Soft Skills:

- Problem-solving
- Documentation & report writing
- Attention to detail

Education :

college name: Yenepoya Institute of Arts, Science, Commerce and Management

- **branch:** Bachelor of Computer Applications (BCA),
- **Specialization:** Data Science & AI, **Minor:** Big Data Analytics
- **graduation year:** 2024 – 2027 (Expected)

Projects :

1. Python Data Automation Script

- Developed a Python script to automate simple data entry tasks using CSV files.
- **Tools Used:** Python, Pandas

2. Student Database Management System

- Designed a database to manage student records with queries for insert, update, and search.
- **Tools Used:** SQL, MySQL

3. Creative Book & Poster Design Project

- Designed visually appealing book templates and digital posters for academic and social media use.
- **Tools Used:** Canva, Figma, PowerPoint

Experience:

Smart India Hackathon – Participant

- Participated in the Smart India Hackathon, showcasing innovative problem-solving and teamwork skills.

Certificates:

Smart India Hackathon 2024 – Certificate of Participation

Python for Everybody – Coursera

SQL for Data Science – Coursera

Data Analysis with Python – Coursera

Graphic Design Basics – Coursera
